

Weber Death Called Murder

until the suspect blew a
fire at Drigg and Third.
"After the officer
caught the suspect, at
nearby railroad tracks,
police say a struggle
ensued and Weber went
for Pasley's gun, where-
by the officer shot him,
not once, but three times.
Accounts by at least
three witnesses, upon
which the NAACP is fil-
ing several court actions,
differs markedly with
official police reports.
Officer Pasley has
been cleared by the
Attorney General's
Office, the Memphis
Police Department and
the Shelby County
Grand jury.
A major difference in
police and witness
accounts of the incident
is in the distance
between the suspect and
policeman who shots
were fired. The police
claim lab tests show the
two were no more than
six inches apart when
shots were fired. At least
nothing but public
assistance would be 10
times as hard.

On March 9, 2021, gang member Chris Wallace is the suspect that had 2 men come to victim Eddie Webber's shop and shot at Eddie Webber in front of his shop. Victim Eddie Webber tried to identify the men, which ultimately led to the gang members shooting the victim Eddie Webber in the left thigh.

****Note: Pictures on the cover of the brochure.*****

- On March 13, 2021, victim Eddie Webber was forced to make a police report on gang member, informant Chris Wallace's threat on trying to kill him as well as gang member Chris Wallace's threat to burn the victim Eddie's shop down.

- On March 15, 2021, Detective Jones of MPD, who is the cousin of gang member, informant Chris Wallace, appears to have retaliated against victim Eddie Webber for presumably making the police report against his thug cousin Chris Wallace by charging the victim Eddie with the following charges: reckless endangerment with a deadly weapon, animal cruelty, dog fighting, chop shop, gang affiliation, and auto theft. The judge signed off of this warrant on 2:00 pm and the corrupt officers where waiting outside of the victim Eddie Webber's house by 2:15 pm to serve him the warrant.

- On March 18, 2021, while the victim Eddie Webber was still recovering from the gunshot wound, he was called and told that his shop on 1615 North Highland in Memphis was on fire. Suspect of the fire is gang member Chris Wallace, as he had intent and made the threat to do so. In the process, gang member Chris Wallace may have been responsible for killing all of victim Eddie Webber's dogs, which were located inside the shop. Victim Eddie Webber has suffered a loss of over \$700,000 from the arson done to his shop, but the police officers refuse to prosecute or investigate their gang member, informant Chris Wallace, who has family ties to MPD. Unfortunately, victim Eddie Webber had no insurance to help cover the lost that he suffered. Note: Look at the pile behind the purple tow truck, as it depicts the arson crime committed allegedly by gang member Chris Wallace.

- On the March 19, 2021, officers was about to charge the victim Eddie Webber with arson and insurance fraud, but the victim Eddie came to the police station and showed the officers all of the evidence of which the officers finally dropped all of the charges. Those officers claimed that they would reverse the investigation and charge gang member Chris Wallace, but they NEVER did so. Detective Jones may have saved his gang member cousin, Chris Wallace again.

- Since the Victim Eddie Webber's business was destroyed and there was a constant threat on his family and his life, victim Eddie Webber had to close his business and rent out his shop to a tenant. So, victim Eddie Webber called his last few customers to give them their money and cars back. For those customers whose cars he could distinguish in the fire that got burned up, the victim Eddie Webber had to inform them that he would replace their cars. A few customers came back and told victim Eddie Webber that Detective Jones had tried to pressure them into trying to lie on victim Eddie Webber after they came to pick up their cars.

- On March 30, 2021, victim Eddie Webber located a tenant for his property at 1615 North Highland and the new tenant took possession. Victim Eddie Webber was the landlord only with no other business involvement with the new tenant. Payment was provided to victim Eddie Webber. As a result, victim Eddie Webber tried to liquidate the remainder of his business and personal inventory, which was all purchased legally from the auction, Holmes towing before they retired, and Facebook Marketplace to give the new tenant all of the space needed to operate their new business at 1615 North Highland.

- However, Detective Jones of MPD appears to still be on a mission to frame and attempt to kill the victim Eddie Webber again. On May 4, 2021, Officers entered property located at 1625 North Highland, which does not belong to victim Eddie Webber. Detective Williams spoke with Eddie, but Eddie informed the detective that 1625 North Highland was not his property. In addition, the victim Eddie Webber told the detective that he would no longer be speaking with officers without a lawyer because he stated that these officers are still attempting to frame him despite the victim participating and the evidence revealing that he is the victim. The most telling sign of these police officers' corruption: When the victim Eddie mentioned that the officers are still moving forward with trying to frame the him, Detective Williams laughed and stated well I'll try not to get you charged with a crime that you didn't do....

Detective Jones of MPD & Chris Wallace Conspiring & Committing Crimes

I have been reporting on a case for over 2 months in which MPD (especially Hood Booger, Detective Jones from Douglass), Sheriff Department (passed to them to divest Detective Jones of his conspiring crimes), and gang member, informant Chris Wallace, who is Detective Jones' cousin, have been trying to repeatedly frame and kill the victim Eddie Webber.

Background story leading up to March 11, 2021:

In November 2020, gang member, informant Chris Wallace is the suspect that sent his gang members to the victim Eddie Webber's home to kill him. One of Eddie's children answered the door and 2 men approached the home and began shooting at the house. The child had to close the door and immediately hide for cover, as bullets pierced inside the house. The victim's wife and 3 children were located inside the home.

- Gang member Chris Wallace pursued numerous harassments leading up to the March 9th, 2021 shooting of the victim Eddie Webber. The gang member Chris Wallace even threatened and made a statement in front of an officer and 2 other witnesses that he (referring to Chris Wallace) is going to make the victim Eddie Webber's shop "look like swiss cheese". The officer did nothing about this threat. Gang member Chris also called the victim Eddie and threatened to kill victim Eddie Webber and burn his shop down via phone, so victim Eddie Webber responded via text and asked Chris Wallace not to kill him and burn his shop down.
